Review Summary

- Adara Training Center's learning environment is supportive, and most learners successfully gain knowledge and vocational skills and achieve their qualifications on time.
- Adara's strengths include learners' achievement, assessment of learning practices, and support provided to learners throughout their learning journey, which leads to the high quality of training. Adara still needs to improve on engaging less active learners during training sessions.
- Adara's management team utilises a regular self-assessment process and other tools to maintain a focused strategic direction for improvement. The next step is to further strengthen these tools to ensure better utilisation of the outcomes in strategic and action planning.
- Adara is 'Good' in all Aspects when reviewed and will develop an action plan to enhance its performance further based on the review's recommendations.
