Review Summary

- Training is delivered in a supportive learning environment. The assessment practices are suitable to check learners' performance during the training. The next step for further improvement is meeting learners' different needs during the training sessions.

- BIT majority of learners acquire suitable vocational skills, and most learners pass the external examinations and achieve the qualifications in a timely manner.

- BIT's management team plays a positive role in setting the strategic direction and ensuring the sustainability of BIT's operations. BIT's self-assessment process is neither systematic nor regular.

- BIT's performance is 'Satisfactory' in all Aspects when reviewed, and an action plan will be developed to enhance its work further based on the review's recommendations.
