## Introduction

The Directorate of Government Schools Reviews (DGS), which is a part of the Education & Training Quality Authority (BQA), conducted this review over three days by a team of four reviewers. During the review, reviewers observed lessons and other activities, scrutinised students' written works and analysed the school's performance data and other documents. They spoke to the staff, students and parents. This report summarises their findings and recommendations.

## Main positive features

- The leadership's high awareness and outstanding practices that serve as an example to emulate in terms of accurate self-evaluation, solid strategic planning and effective encouragement of teachers, such as in the 'Danat Abufiras' project.
- Students' outstanding levels in school examinations and their very high proficiency rates in all core subjects, in addition to their remarkable acquisition of skills, knowledge and concepts and evident progress in lessons.
- The effective teaching and learning strategies and the outstanding utilisation of digital empowerment tools and different assessment methods, using the results of these to support students and meet their different educational needs. This is built on the impact of the professional development programmes offered to teachers, especially new ones, such as the 'Twinning' project.
- The effective and varying support programmes and projects provided to students, which contribute significantly in meeting their different academic needs, including:
  - 'I love the Arabic language', a programme for non-native speakers of Arabic. This is offered to students prior to their enrolment in the school and contributes to their outstanding progress
  - 'Challenge Heroes', a programme designed to raise the academic achievement of students with learning difficulties while considering their learning patterns, which contributes to raising their pass rates
  - 'Khawarizmi of Abufiras', a programme of competitions and projects that aim to enhance the mathematical and problem solving skills of outstanding students and raise their proficiency rates
  - 'A Book under Drafting', which aims to promote the creative writing skills of the outstanding and talented students and enrich their linguistic abilities
  - 'Dictation Knight' and 'Nour Al Bayan' programmes that are designed to raise low-achievers' proficiency levels in lessons, along with enrichment lessons offered with the assistance of the outstanding students
  - Pioneer projects to induct students and enhance their experiences, such as 'Generations building the future' that is meant to prepare Grade 3 students for their next stage of education.
- Students' leadership personalities, their good behaviour, their ability to assume responsibility with competence and confidence, their enthusiastic contribution to school life with great harmony among them and their evident motivation to learn,

which all make them an example to emulate. There are also booster programmes, including:

- ‘Self-Rule’ project, designed to polish students’ leadership skills and ability to work independently, through assigning them the duties of the teaching and administrative staff such that they undertake the school affairs for a whole school day
  - ‘Little Researcher’ project, which aims to enhance students’ independent learning and develop their abilities to research, review and make oral presentations
  - ‘Little Evaluator’, designed to polish students’ communication skills including constructive criticism, opinion expression and persuasion
  - ‘Abufiras Knight’, which aims to boost students’ positive behavioural values and instil the spirit of competitiveness among them.
- The school’s effective utilisation of the available resources and facilities as per its capacities, and the variation in the excellent extracurricular activities provided to students.

## Recommendations

- Disseminate the school’s outstanding practices and pioneering projects to benefit other educational institutions in the Kingdom, to elevate education outcomes towards excellence.
- Benefit from the remarkable educational practices to develop teaching and learning to ensure that the limited number of low-achievers are supported in lessons.
- Address the shortfall in human resources represented by senior teachers for the class teaching and English departments.

## □ Capacity to improve ‘Outstanding’

change and development, who effectively succeed in overcoming the challenges the school faces, particularly the shortage in human resources represented by senior teachers for the class teaching and English departments.

- The academic and administrative departments at the school are distinguished through their professional competency that have led to high-quality educational situations, especially in the class teaching department.
- The school leadership serves as a role model, for its distinguished performance

and for instilling the spirit of one family among its staff, as well as for its shared and power-delegation approach. This is supported by the school's care and efforts to provide continuous professional development programmes.

- The school's assessments of its performance as provided in the Self-Evaluation Form (SEF) match the judgements reached by the review team, due to the leadership's awareness and rigor.
